

GYSMI E163

New MMA welding machine,
+ compact & + efficient..

www.gys.fr

3 welding modes

- MMA
- MMA Pulse
- TIG Lift DC

Easy to use

Hot Start
Easy ignition.

Arc Force
In case of difficult welding, GYSMI E163 intermittently increases current.

Antisticking
Reduces the risk of sticking if the electrode comes into contact with the work-piece.

Auto DownSlope
Avoids cracks and craters at the end of TIG welding (adjustable from 1-10 sec).

Made in France

Lightweight

3.7 kg

- Welding current adjustable from **10 to 160 A**
- Designed for electrodes **Ø 1.6 to 4 mm**
- Welding **up to 10 mm** (5 mm TIG)
- **MMA Pulse function**, ideal for vertical upright welds.
